

To Whom It May Concern:

This is in response to your request for input regarding your "Localism" campaign. I'm very concerned about these changes and how it would affect current FM translator service. I'm an avid listener of AIR 1, and I receive it on FM 88.9 in Louisville, Kentucky. The changes that are being proposed would possibly displace AIR 1. I would hate to see that happen.

AIR 1 is a listener-supported station, which gives an alternative to the typical music and talk offered on other stations. My family and I listen daily to this station, and we have seen the impact that it has, not only in our area but in many parts of our country.

Please consider these things as you make your decision; it is my hope that you will not allow changes in the current system if it would displace programming such as AIR 1 provides.

Sincerely,
Tamara S. Miller
